Course Instructor
Instructor: Suely Oliveira  
Campus Address: 101H MLH  
Phone: (319) 335-0731  
Email: suely-oliveira@uiowa.edu  
Office Hours: Tu 10:00-11:00 am  
Th 10:00-11:00 am

Class Meeting Times
--Recorded and posted weekly  
--Office hours on Tu&TH for questions  
--Weekly quizzes posted on ICON on Thursdays and due on the same day.  
To access the course site, log into Iowa Courses Online (ICON) using your Hawk ID and password.

Academic Course Home
College of Liberal Arts and Sciences  
DEO: Alberto Segre  
Phone: (319) 335-1713  
Email: alberto-segre@uiowa.edu

Prerequisites
CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-

Course Description and Goal
Design, implementation, and application of data structures (e.g., linked lists, stacks, queues, hash tables, trees); complexity analysis; recursion; introduction to object-oriented programming concepts; abstract data types and their realization using generic interfaces and classes; software design patterns (e.g., iterators, comparators).

Topics and Schedule (tentative plan)
- Week 1: Java basics, Java x Python  
- Week 2: Loops, arrays, methods, recursive algorithms  
- Week 3: Classes and subclasses, interfaces and abstract classes  
- Week 4: Generic methods and classes, comparators  
- Week 5: Analysis of recursive and non-recursive algorithms  
- Week 6: Iterators  
- Week 7: Linked Lists  
- Week 8: Stacks and Queues  
- Week 9: Priority Queues and Heaps  
- Week 10: Maps and Hashtables  
- Week 11: Graph algorithms and data structures  
- Week 12: Binary Search Trees  
- Week 13: Balanced Search Trees  
- Week 14: Balanced Search Trees  
- Week 15: Review/Help with Final Exam

Required Textbook/Media
Zybooks – Reading and Homeworks and ICON – for grades and lectures

Assessment
20% Midterm 1, 20% Midterm 2, 10% quizzes 30% Programming Assignments(6) and 10% Homeworks, 10% Final-PA. Plus/minus (+/-) grades will be used. Curving only done for final letter grade (may help or not)
Objectives
After finishing this course students should be proficient in Java and Data Structures for various applications.

Collaboration policy
Students will work together within the assigned groups for the group PA’s, for other homeworks they can consult with anyone taking the class, for exams and quizzes we expect individual work and students will be penalized if they consult with each other.

Course Policies
• Communications: You will need to check ICON at least the days of the class. I will send emails to the class as needed.

• Due Dates and Missed Deadlines: In some cases, late programming will be accepted up to 2 days late if justified. In such cases expect a 20% late penalty.

• Attendance: Attendance is expected from all students for all classes. Exceptions will be made for illness, mandatory religious obligations, or other unavoidable circumstances. If a student fails to attend an exam for one of the reasons listed above, they should talk to the instructor about a make-up exam.

College and University Policies
Administrative Home
The College of Liberal Arts and Sciences is the administrative home of this course and governs matters such as the add/drop deadlines, the second-grade-only option, and other related issues. Different colleges may have different policies. Questions may be addressed to 120 Schaeffer Hall, or see the CLAS Academic Policies Handbook at https://clas.uiowa.edu/students/handbook.

Electronic Communication
University policy specifies that students are responsible for all official correspondences sent to their University of Iowa e-mail address (@uiowa.edu). Faculty and students should use this account for correspondences (Operations Manual, III.15.2, k.11).

Accommodations for Disabilities
The University of Iowa is committed to providing an educational experience that is accessible to all students. A student may request academic accommodations for a disability (which includes but is not limited to mental health, attention, learning, vision, and physical or health-related conditions). A student seeking academic accommodations should first register with Student Disability Services and then meet with the course instructor privately in the instructor’s office to make particular arrangements. Reasonable accommodations are established through an interactive process between the student, instructor, and SDS. See https://sds.studentlife.uiowa.edu/ for information.

Nondiscrimination in the Classroom
The University of Iowa is committed to making the classroom a respectful and inclusive space for all people irrespective of their gender, sexual, racial, religious or other identities. Toward this goal, students are invited to optionally share their preferred names and pronouns with their instructors and classmates. The University of Iowa prohibits discrimination and harassment against individuals on the basis of race, class, gender, sexual orientation, national origin, and other identity categories set forth in the University’s Human Rights policy. For more information, contact the Office of Equal Opportunity and Diversity, diversity@uiowa.edu, or visit diversity.uiowa.edu.
Academic Honesty
All CLAS students or students taking classes offered by CLAS have, in essence, agreed to the College's Code of Academic Honesty: "I pledge to do my own academic work and to excel to the best of my abilities, upholding the IOWA Challenge. I promise not to lie about my academic work, to cheat, or to steal the words or ideas of others; nor will I help fellow students to violate the Code of Academic Honesty." Any student committing academic misconduct is reported to the College and placed on disciplinary probation or may be suspended or expelled (CLAS Academic Policies Handbook).

CLAS Final Examination Policies
The final examination schedule for each class is announced by the Registrar generally by the fifth week of classes. Final exams are offered only during the official final examination period. No exams of any kind are allowed during the last week of classes. All students should plan on being at the UI through the final examination period. Once the Registrar has announced the date, time, and location of each final exam, the complete schedule will be published on the Registrar's web site and will be shared with instructors and students. It is the student's responsibility to know the date, time, and place of a final exam.

Making a Suggestion or a Complaint
Students with a suggestion or complaint should first visit with the instructor (and the course supervisor), and then with the departmental DEO. Complaints must be made within six months of the incident (CLAS Academic Policies Handbook).

Understanding Sexual Harassment
Sexual harassment subverts the mission of the University and threatens the well-being of students, faculty, and staff. All members of the UI community have a responsibility to uphold this mission and to contribute to a safe environment that enhances learning. Incidents of sexual harassment should be reported immediately. See the UI Office of the Sexual Misconduct Response Coordinator for assistance, definitions, and the full University policy.

Reacting Safely to Severe Weather
In severe weather, class members should seek appropriate shelter immediately, leaving the classroom if necessary. The class will continue if possible when the event is over. For more information on Hawk Alert and the siren warning system, visit the Department of Public Safety website.
