

22C:16 Practice for Quiz 8

1. For this problem, suppose that `s` is the string "Hello, how are you?". What does each of the following expression evaluate to?

(a) `s.upper().split()[:2]`

(b) `s.split("o")`

(c) `s.replace("o", "who")`

(d) `chr(ord("m") - (ord("a") - ord("A")))`

(e) `"".join(s.split())`

2. Write a program that reads from a file called "input.txt" and outputs the the file without any *empty* lines. An empty line is one that contains just the end-of-line character or it contains some number of spaces (blanks) followed by the end-of-line character.
