22C:16 Quiz 8
Date: Apr 3rd, 2012

1. [**5 points**] Suppose that L is the list ["what", "are", "you", "doing", "next", "Saturday?"]. Write down what the value of L is after each of the following Python statements.

   (a) `L.insert(3, "not")`

   (b) `L[::2] = ["yes", "no", "yes"]`

   (c) `L.remove("you")`

   (d) `L.pop()`

   (e) `L[2] = L[3][2]`

   Turn over for Problem 2.

2. [**5 points**] What is the output produced by the following code fragment?

```
L = ["what", "are", "you", "doing", "next", "Saturday?"]
for e in L:
    print e
    print L.pop()
```
